THE REGISTRAR

No. 20, September, 1927 THE TRAIL Edmonton, Alberta

THE out-going editor has soothed the seat of the editorial chair with blessings for the new incumbent. Those same blessings were not bought with a pot of porridge, and for that reason, probably, are the more gratefully received. The executive of the associated alumni, briefly, has fulfilled one of the duties of office in the appointment of an editor of their magazine; and their employee hereby says grace over the table spread by his predecessor, Wesley Oke, M.A. (aspiring to B.Educ.).

THE teachers of the province, through the Alberta Teachers' Alliance, have recently petitioned the Minister of Education to grant teaching licenses to graduates of the Faculty of Arts taking special professional courses for teachers' courses which the University would be asked to supply. The Minister has promised his consideration.

The advantage to the Faculty of Arts would be inestimable, if for no other reason than the fact of a professional group within a faculty whose composition now consists of culture-seeking embryo doctors, scientists, lawyers and what-nots; the what-nots predominating.

AT the annual Summer School banquet held this summer Dr. Tory asked to be pardoned an expression of pride in the appearance of the University campus. The request was unnecessary, as the pride is justified. The ample moisture of this year's summer no doubt was an important factor, but mainly in bringing into relief the results of years of careful planning and skilful workmanship. The mosquitoes enhanced the beauty by requiring a distant perspective.

UNIVERSITY of Alberta Quarterly has been the dream and vision of successive editors of *The Gateway* and *The Trail.* For two reasons: (1) Western Canada has industrial and social conditions peculiar to itself and yet of preponderant importance to the rest of the Dominion. (2) There is no periodical medium in Western Canada for the solution of these problems by the transfer of thought from the thinkers to those who might profit thereby. *The Trail* should provide a convenient and respectable beginning.

This is a dream—not a panic.

TO James McMillan, B.Sc. '24, and Stuart Jaffary, B.Sc. '21, must credit be given for suggesting the form of this issue of *The Trail.* The former, in a letter, says: " . . . it is possible that some of us who have strayed—not like sheep, I hope —from the fold, might find others who had strayed to the same or nearby places and there would be the usual surprises of finding that those we thought were in some definite location actually were elsewhere."

No effort has been spared to make this directory complete and accurate. It is inevitable that there will be some mistakes —it is hoped there are no omissions—and the Council would urge those alumni who

find errors to communicate with the Secretary at once. Not all graduates *ad eundem* are included, because the Constitution stipulates that these shall only become members "on application." The same remark applies to those who have, perforce, completed their courses elsewhere, and who are denoted by an asterisk in the register.

We hope you'll like it!

STUART Jaffary and Geoffrey Taylor have earned the gratitude of all alumni through their work in the actual compilation of the directory. It has been a tremendous task for two busy young men. To complete it in time for this September issue has demanded the utmost of their time and energy. We thank them earnestly.

WESLEY Oke, lately the editor of this magazine, was elected last March to the presidency of the Students' Union. In his campaign last spring he attacked with much vigour and conviction many of the accepted principles of student government at Alberta. Some interesting developments may therefore be observed in the course of this autumn and winter. Student politics should be very lively this term, and the alumni will watch with glee.

THE dream of the Covered Rink is rapidly becoming a reality under the saws and hammers of the Brown & Son Construction Company of Edmonton. The work, which commenced about August 22, should be completed in October. The rink is situated one block west of 112th Street and opposite 87th Avenue. The project has suffered dangerous and almost fatal vicissitudes since it was first proposed by a group of students in the days when the Hall rang to the oratory of Joe O'Brien, Mark Levey and John Cassells. Its realization now is almost entirely due to the genius and energy of Dr. Hardy. An undergraduate asked me the other day whether the structure might not be called the Hardy Memorial Rink, even though the genial young classicist is still treading gaily the dance of life?

IN order to save labor and expense a bill for 1927-28 fees is enclosed. Alumni who have already paid this year's fees are asked to disregard the yellow slip; those who have not are urged to fill in their name and address, attach a two-spot, and entrust the whole to His Majesty's mails "toute de suite." WESTERN INTERCOLLEGIATE RUGBY

Prospects Never Brighter for Great Fall Game

Varsity grads will indeed be pleased to learn of the new departure which is being made in the arranging of the rugby programme for this fall. With the official opening of the Western Intercollegiate Rugby Union, which takes place *in Edmonton* on Saturday, October 8th, the dream of many a former student and rugby fan will at last have been realized. While it has always been freely admitted that rugby is essentially a college game, the establishment of the game on its proper basis here in the West has long been retarded by the extremely long railway jaunts necessary to the carrying out of any schedule. The undertaking, needless to say, is still a gigantic one, but, as a result of steadily growing student bodies and the increasing interest shown in the game with each succeeding year, it has at last been decided by the three western universities that *now is the time* to venture forth.

The schedule, as arranged for this year, is a very promising one calling for three series of home-and-home games between Manitoba, Saskatchewan and Alberta. We are indeed fortunate in drawing the opening game *on October 8th*, and it is to be hoped that many of the old guard will seize this as an opportunity of renewing old acquaintances about the University. Alberta's other home game will be on *October 29th*, when a University of Manitoba rugby team will be entertained in Edmonton for the first time in history.

With the early start, thus ensuring good weather, a banner season is expected and keen rivalry is anticipated for first possession of the new pennant. At any rate, those in the know are not at all backward in their prediction that, when the smoke of battle has all cleared away Alberta, with two successive provincial championships to her credit, will not be very far from the touch-line.

INTERCOLLEGIATE TRACK MEET

Big things are planned this year in the realm of track and field athletics. Besides the Annual Interfaculty Field Day (in conjunction with the "Fresh Men's Reception") on the Varsity Grid on October 6th, there is to be held in Edmonton on October 15th the annual Intercollegiate Track Meet, under the auspices of the W.C.I.A.U. Alberta will be host to British Columbia, Saskatchewan and Manitoba. Len Cockle, of javelin fame, is out to break his record made at Saskatchewan last year. Fred Russell, who was fourth in the Canadian Olympic trials at Toronto in August, is expected to add to his high jump of 5'10½". "Flaxen Fritz" Werthenbach, who stars in the hurdles and broad jump, will also be back to break his own records.

From indications so far, a large number of Alumni will be in town for the meet, as one of the major events of the Fall season.

CUMULATIVE PRIOR PREFERENCE SHARES

Northwestern Utilities Limited paid dividends to 335 prior preferred shareholders in June of this year.

These people are getting the reward for their foresight in making their money work for them; the dividends provide an extra income that in many cases means extra comfort and enjoyment.

You can adopt a definite savings plan that will provide for the purchase of shares in this ever-growing Public Utility. You have ten months to make the payments. 6% interest allowed on payments until purchase is completed.

Present Yield—6¼%.. Present Value—$96.00

Write or call at the Office for further information.

Your Life's Work

The selection of his life's work is in many respects the most important matter in a young man's life.

In making this selection give careful consideration to the business of Life Underwriting. Life insurance is no longer a haphazard business for the temporary employment of any Tom, Dick or Harry who may wish to engage in it. Only those who wish to make it their permanent life's work can hope to be successful.

Life insurance is more and more being considered an absolute necessity to the individual, to the home, to the business, or to the corporation, and yet life insurance is merely on the threshold of its greatest development. Scarcely one million people out of a population of nine million in the Dominion of Canada have any life insurance.

The salesman who specializes on life insurance averages greater remuneration than any other business or professional man and there are always managerial positions awaiting those who have proven their ability as organizers and producers.

The Agency Department of THE COMMERCIAL LIFE will be glad to take this matter up further with anyone who is interested.

Pasteurized Milk Means Safe Milk!

The pasteurization process safeguards the welfare of all who drink milk. Experience has proven its reliability. There is no other process that can take the place of that which the great intellect of Louis Pasteur founded for humanity.

SAFE MILK is a main source of body-building and health-building for young and old.

Our milk is carefully pasteurized, and is brought to you through the strictest of sanitary methods of handling.

When you drink our milk you know that you are receiving
